

# "MAKE A SOLAR PANEL"

- DATE:** Saturday, March 19, 2011
- TIME:** 9:30 am - 4:30 pm, rain or shine
- PLACE:** MFS Consulting Engineers, LLC  
2780 Hamilton Boulevard  
South Plainfield, New Jersey 07080
- AGES:** High School and adults
- FEE:** \$120.00, 50% tax deductible
- REGISTRATION:** Please pre-register by March 12, 2011  
[www.nyses.org](http://www.nyses.org) PayPal or [wyldon1@gmail.com](mailto:wyldon1@gmail.com)  
Limited enrollment: 12 persons.

This one day workshop will take the participant through the hardcore mechanics of assembling silicon cells and producing electricity from a working solar panel. Our experienced instructor, John Burke, has taught with Dr. Richard Komp for several years and worked extensively with solar enthusiasts and in NYC area schools building solar panels.

Participants will have hands-on experience opportunity working together on one panel, in all aspects of assembly of a 60W PV module, including liquid silicone encapsulation method, developed by Grupo Fenix, in Nicaragua.

Vegetarian lunch and light refreshments provided. Please note if you prefer vegan alternative.

Co-sponsored by New York Solar Energy Society and Northeast Sustainable Energy Association – New Jersey
